A friend at work told me about Curves. I had been ill and needed to lose weight and get fit and healthy, so I joined. I really like Curves because it is such a short exercise time it's easy to fit in – I go straight from work. You don't get bored and there's no waiting around.

Curves has made such a significant difference to me, more than just losing 5 stone and going from a size 24 to size 12. I am much more confident with lots more energy. I take more pride in my appearance. I enjoy shopping now – it used to be outside shops or nothing, now I have so much choice! I'm a bit of a shoe-a-holic and now I can get shoes to fit! The first thing my hubby noticed was that I could walk much further and I wasn't out of breath. I have now achieved a high level of pilates which I couldn't have done when I was overweight. I will attempt things now that I wouldn't have considered before – e.g. ballroom dancing classes. And I can sit in an aeroplane without touching the sides of the seat!
